ABOUT OUR COMPANY

Aircare cGMP Validation and Engineering (ACVE) established as one of the leading cleanroom validation, Equipment qualification, Temperature mapping services Provider Company in India. We provide an extensive range of cleanroom validation, Equipment qualification, Temperature mapping services with all testing carried out to the highest standard by fully trained and competent engineers.

At Aircare cGMP Validation and Engineering (ACVE), we specialize in third-party Cleanroom Validation Services, ensuring compliance with regulatory standards like **WHO, USFDA, and ISO 9001**. With advanced instruments and a commitment to precision, we provide comprehensive cleanroom testing, compressed air validation, temperature mapping, and controlled environment monitoring.

Our expertise extends to HEPA filter leak testing, airborne particle monitoring, autoclave validation, and more. As a trusted partner in validation services, we deliver accurate testing, detailed reports, and regulatory compliance to maintain optimal cleanroom performance.

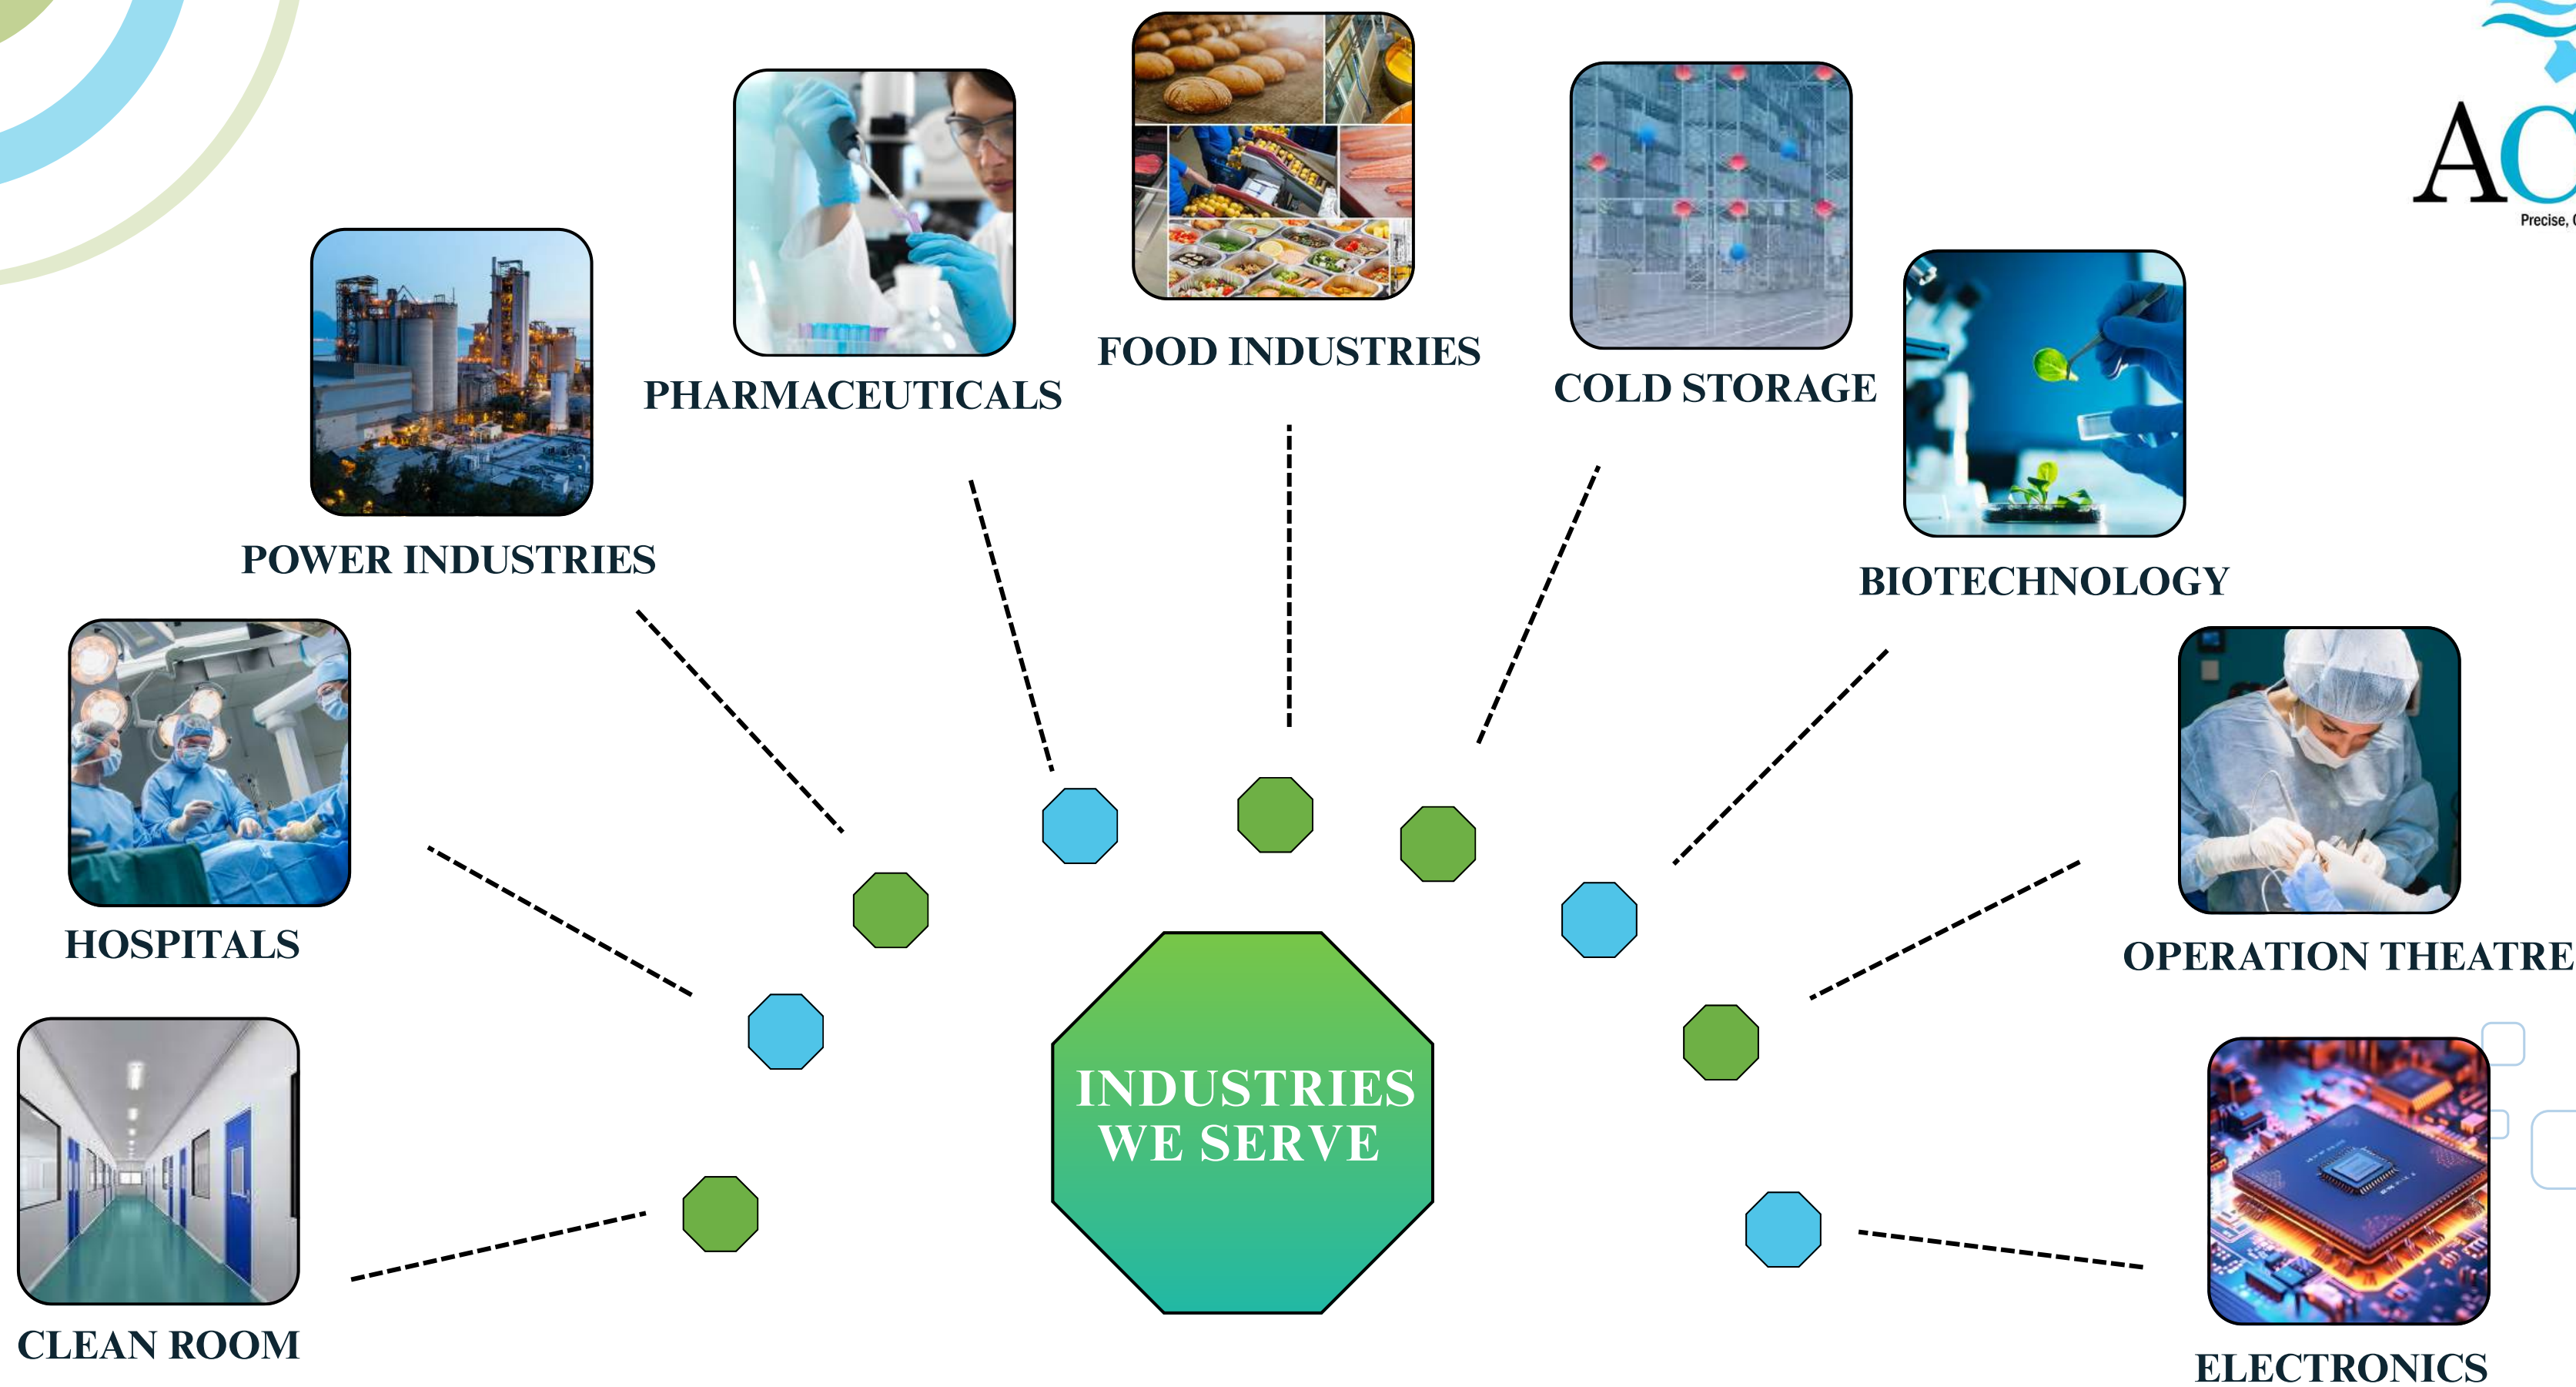

OUR VISION AND MISSION

"To deliver precise, reliable, and compliant validation and engineering services by combining technical expertise, cutting-edge technology, and a customer-first approach — ensuring our clients meet regulatory standards with confidence and efficiency."

“We stand for accuracy, compliance, and trust. From HVAC and cleanroom validation to cGMP engineering solutions, we ensure every system is tested, certified, and ready to perform at its best. By merging technical skill with a client-focused mindset, we make regulatory compliance a smooth, transparent, and reliable process.”

OUR SERVICES

ACPH TEST

HEPA / ULPA FILTER INTEGRITY TEST

PARTICLE COUNT TEST

AIR FLOW PATTERN TEST

LIGHT INTENSITY TEST

DUCT LEAKAGE TEST

OUR SERVICES

NOISE LEVEL TEST

AREA RECOVERY TEST

AIR BALANCING

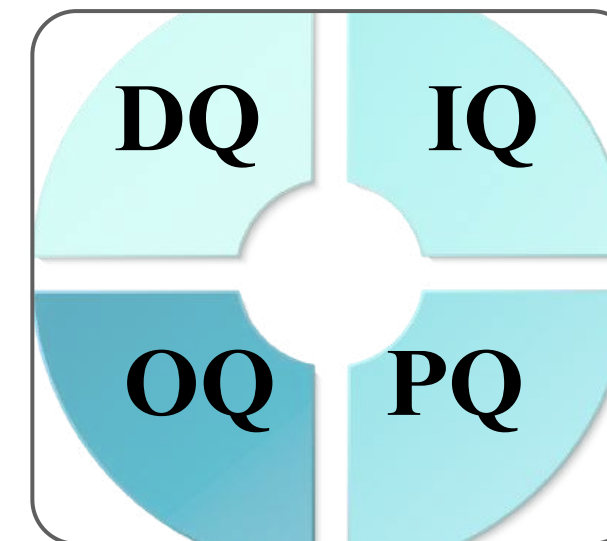

AUTOCLAVE, STERILIZER VALIDATION

DIFFERENTIAL PRESSURE, TEMPERATURE, AND RH MONITORING

DOCUMENTATION

WHY CHOOSE US

- ✓ We specialize in onsite cleanroom validation & certification in strict compliance with global standards, including:

ISO 14644 Part 1
EU GMP & cGMP
IS 209E
WHO 2002 Guidelines
USFDA Regulations

- ✓ **Expert Hands, Proven Results :—**
Years of successful HVAC, cleanroom, and cGMP validations.
- ✓ **Audit-Ready Every Time :—**
WHO, EU-GMP, USFDA, ISO — we know the rules, inside and out.
- ✓ **Tailored to You :—**
Customized protocols and testing for your facility, your timelines.
- ✓ **Technology You Can Trust :—**
State-of-the-art instruments, fully calibrated and validated.
- ✓ **Reliability You Deserve :—**
On time. Every time. Without compromise.

YOUR COMPLIANCE IS OUR COMMITMENT YOUR SUCCESS IS OUR MISSION.

WHY CLEAN ROOM / HVAC VALIDATION MATTERS

- ✓ **Protects Product Quality**
Controls contamination, temperature, and humidity.
- 🛡️ **Ensures Safety**
Prevents harmful microbial & particulate risks.
- 📋 **Meets Compliance**
Required by cGMP, ISO, WHO, FDA, EMA.
- ⚙️ **Optimizes Performance**
Improves reliability & reduces downtime.
- 🤝 **Builds Trust**
Demonstrates commitment to quality & compliance.

VALIDATION IS NOT OPTIONAL
It's the Foundation of Quality, Safety, & Compliance

CLEANROOM ENGINEERING

Cleanroom Engineering at Its Best

At Aircare cGmp Validation & Engineering, We are a professional cleanroom maintenance company dedicated to providing timely and efficient services. With years of experience in the industry, we know what it takes to maintain a clean, safe and productive working environment.

At Aircare cGmp Validation & Engineering, we offer regular visits to your facility to check and clean the filters, ducts, AHUs and perform all necessary mechanical and electrical checks. Our team is trained to identify potential problems to prevent unexpected breakdowns. Let us help you maintain a safe and efficient cleanroom environment.
